From: Mounika Sama,
Government press colony,
Hyderabad, India.
June 29, 2019.

To: Honourable Judge Gershwin A. Drain
United States District Court
231 Lafayette Blvd
Detroit, MI 48226.

Subject: letter to the judge in connection with Santosh Sama sentencing.

Dear judge Drain,

Your honour, I am Mounika Sama wife of Santosh Sama of age 25 years Resident of Home No: 17-1-382/P/98 government press colony, Champapet, Saidabad, Hyderabad 500059. Bearing an Aadhar number 5650 6412 2178 addressing you to urge leniency in the sentencing of my husband who is appearing before your court and to express my life, struggles to live without Santosh.

I and my family have known Santosh Sama as a long relative over years I was troubled and shocked to hear and see news about Santosh conviction in news channels as he always been a rather solid person.

Sir I am daughter of a normal farmer father who works in farms for a complete day to provide food & shelter to my family by doing agriculture.

After hard struggles of our life's I have got married to Santosh on 24th FEB 2018 selected by my father by knowing Santosh and his responsibilities towards family, sisters living and their wellbeing as a father does to a family.

I as a wife feel proud of my husband for his academics, responsible nature and for the way he stood with my mother-in-law at young age after losing my father-in-law by working part time in hospital after his college hours to meet family necessities and maintain living along with the pension provided by the government. He never lived for himself, it is not easy to protect a woman and three girls throughout growing and providing them education and getting them to do settle in good positions like Teacher, Doctor and Government servant at the cost of his life shows how selfless person he is.

I know Santosh's love and care towards his loved ones is abundant. I strongly remember the moment my mother-in-law shared with me about her spine surgery for L4 L5 grade II SPONDYLOLISTHESIS made Santosh sacred most and he was been with her day and night completely at the hospital till her recovery, He was being at the back of doctors knowing about her condition and by giving medicines to her at the prescribed time with lot of expressions of love and happiness of having a son like him made me feel like a luckiest girl for having him as husband.

His kind and compassionate nature comes out in his ever ready approach to take on any kind of community service that is organized. His honesty makes everyone fall for him as he is dedicated to the word he has given. He respect elders who are senior citizens and help them more for their love in our community as he hasn't experienced father love, for which they came to our home soon after knowing about the news in television with filled tears in their eyes. He has become a family member in every house of our community.

All his qualities like loving, caring, responsible towards life and career, capable and helping nature, standing up for friends, to his active participation in social activities by serving poor and needy, taking care of his mother who lost her husband so early shows a great son present within.

His friendly nature huge respect towards society and female etc. which made me love him more and marry him to be his life partner.

After our wedding he became son even to my mother's family giving us strength by motivating with his great words with the experiences he faced after his father passing away.

As expected he was so protective about me out of love, caring to me about my health and medication, possessive of me, by taking me out for refreshment, giving time to me to share my feelings, freedom which made me happiest girl in the world knowing the good news that we are going to be parents soon.

But our happiness faded away by losing our baby After then I was attacked with cardiac arrest with the breathlessness for which I underwent to a heart surgery with the surgical method named PBMV (PERCUTANEOUS BALLON MITRAL VALVULOPLASTY) for mitral valve stenosis performed on 26 JUNE 2018 at Yashoda Hospital situated at malakpet with inpatient id 228513 from then I am under supervision of Dr. G. Sudarsana Reddy MD,DNB(Cardio) CONSULTANT AND CHIEF CARDIOLOGIST Reg. no: 6489 with the hospital id YH

: 215656634 regularly , with which my life has become miserable without Santosh. Doctor prescribed me to wait for certain time for another surgery named HYSTEROSCOPY AND SEPTUM RESECTION after PBMV as it involves high risk due to complete body Anaesthesia as I am a cardiac patient to be performed in presence of Santosh with his permission. My health condition is DEALT ONLY AFTER SANTOSH RETURNBY DOING SURGERY WITH HIS PERMISSION.This puts both me and he in high stress and the depression causing to me about his current situation is eating my soul and body inside which can only be solved by his presence with me.

As I am a cardiac patient under medication regularly alone with an injection named penidure12 LA to maintain my heartbeat controlled. I am a house wife who is completely dependent on him in every aspect like hospitality, medication health, even for bread and butter and rest of my life by with which my living has become miserable without Santosh.

Sir I am suffering from unfortunate things at my young age with lot of difficulties in health physically, suffering mentally by missing my love life and husband recently led to my depression for not withstanding to his current situation and wishing to be in his arms for peace.

The transgression of offence committed should not be the only factor you look at in this case, I hope you will also consider Santosh efforts to be better in his responsibilities, in community, academics, future etc. as well as his strong commitment to his family and also recently he has been under tremendous stress due to health issues related to my Heart and Gynec and struggling to meet the treatments.

Santosh is incredibly remorseful and is willing to do whatever it takes to make reparations emotionally if possible. But to do that he needs you to give an opportunity to get a chance. I just hope you will recognise the power you wield with regard to the future of Santosh Sama and make a fair decision.

I Mounika Sama admit the above written words and Description is true and correct to an oath to God and I hereby depose my DECLARATION in the form of AFFIDAVIT attested by Notary Public and also enclosing all my health reports and identity proofs in the following supporting documents.

Thank you for taking your time to read my letter and know about my past with Santosh Sama and my present struggles for life without him. It is my sincere hope the court takes this letter in to consideration at the time of sentencing

Mounika
215656634

and please let this be a factor in your decision as he had already experienced detention to utmost time for unintentional thing.

Sir out of all, I am a girl honestly requesting you and concerned authorities of USA to consider my words and save my life by giving a chance to my husband, which in turn saves my life sir, please consider my request to release him and save a patient life considering this to be my last wish by sending him soon for which I will be very thankful to you and USA government throughout my life.

Thank you,

Yours Faithfully,
